TECHNICAL SKILLS

< > LANGUAGES

C, Java, Python, Go, Rust,
TypeScript, JavaScript

🌐 WEB TECHNOLOGIES

HTML, CSS, Tailwind, React,
React Native, WebGL

🔧 TOOLS & PLATFORMS

VS Code, Cursor, Android Studio, Flutter, Firebase,
MongoDB, Render, HuggingFace, Google Colab, Netlify,
Docker

🤖 AI / MACHINE LEARNING

RL Training, GRPO,
LLM Fine-tuning, Unsloth

CERTIFICATIONS

- **All India Top 800 Developer Teams**
(MRTA x Scaler School of Tech)
— Certificate of Achievement
- **AISSMS Hackathon**
— Certificate of Participation
- **Inovista Hackathon**
— Certificate of Participation
- **Generative AI Program**
— Outskill (16hrs)

ACTIVITIES

- **Member, AIML Club**
Dhole Patil College of Engineering
(AI/ML Projects, Workshops, Competitions & Research)
- **Member, Antriksh Club**
Dhole Patil College of Engineering
(Technology & Aerospace Projects)

🎯 CAREER OBJECTIVE

Passionate Computer Science student with hands-on experience in AI, full-stack development, Android, and systems programming. Proven nationally with Top 800 finish out of 72,000+ teams. Eager to build real-world, high-impact systems.

🎓 EDUCATION

Bachelor of Engineering — Computer Science & Engineering

Dhole Patil College of Engineering, Pune

 2025 – 2029

🏆 HACKATHONS & ACHIEVEMENTS

MRTA x Scaler School of Tech, Bangalore — Top 800 out of 72,000+ registrations nationwide.

Built GridMind-RL: an RL environment training LLMs to manage industrial building energy systems.

Backend in Go Agent in Python Deployed on HuggingFace

● **Certificate of Achievement — All India Top 800 Developer Teams**

AISSMS Hackathon (Team Lead)

Built a full satellite communication system with camera & sensors, connected to rural & urban ground nodes providing live sensor data and photos on a webpage. Successfully tested parachute drop from crane.

● **Certificate of Participation**

Inovista Hackathon (Team Lead)

Built a standalone satellite system with orientation and location detection.

● **Certificate of Participation**

PROJECTS

GridMind-RL

RL environment training LLMs to manage industrial building energy systems. Go + Python + Docker + HuggingFace. Selected Top 800/72,000 nationally.

Live: prajwal782007-gridmind.hf.space

Go, Python,
Docker,
HuggingFace

Satellite Communication System

Full hardware satellite with camera & sensors, rural & urban ground nodes, live data & photos on webpage. Parachute drop from crane tested successfully. (AISSMS Hackathon — Team Lead)

C, Python,
IoT, Web

Jarvis AI Agent

Personal Python AI agent that builds daily schedules automatically.

Python

RAT App

Phone penetration testing tool built in Python.

Python

Rust GridMind Clone

Full re-implementation of GridMind in Rust for systems-level learning.

Rust

Academy Management App

Dual app (teacher + student) with quiz system, speed-based leaderboard, and full registration.

Flutter,
Firebase

Store Ordering App

Full-stack mobile app with MongoDB, Render server, customer offers & storeman dashboard.

MERN Stack,
MongoDB,
Render

Online Tic Tac Toe

Multiplayer via 6-digit room code, AI mode, offline mode, polished UI.

React,
Node.js

Real-Time Inventory System

Android + Web with Firebase Firestore.

Java, Firebase,
HTML, CSS

Expense Tracker (Exper)

Personal finance tracker with charts and budget tracking.

HTML, CSS, JS

5+ College Student Projects

Built for fellow students across various domains.

Multiple Tech
